

# Maintenance Fault Reporting Document

Getting the screenshots prepared is a good approach that might time savings. But having screenshots already prepared in addition to callouts, explanations, and annotations is an excellent approach which you will save much longer. More than likely, you've all that stuff prepared inside your maintenance fault reporting document but it's not very polite to deal to the person: "Read that fantastic manual". User may do not know the location where the manual is on the PC as well as on what page is the looked-for solution located. On the other hand, you may also have zero time and energy to manually cut particular pages with screenshots and related instructions from your manual also to attach them to each support message.

Consider virtually any kind of services or products is now purchased or enlisted online, getting repair manuals is effortless. With many suppliers, immediate accessibility to manuals is done possible since they will be stored and ready for download in Portable Document Format (PDF). And unlike traditional printed service manuals that may be easily lost or damaged over time, these maintenance fault reporting document might be safely held in your pc for future repairs.
